Senior Front-End Software Developer

Job Description

POSITION SUMMARY

Global Emergency Response, Inc. (GER) is seeking a Senior **Front-End Developer (Remote)** that develops applications, web services, and web pages for use by GER in their web solutions. Because of the specific and sensitive nature of the work as well as the security requirements, only US Citizens may apply for this position.

GER is a mission-driven organization serving federal agencies, including the Department of Homeland Security (DHS), the Defense Health Agency (DHA), and the Department of Veterans Affairs (VA). We specialize in delivering solutions in Military Health, Shelter Management, and Electronic Medical Records (EMR), with a strong focus on innovation, efficiency, and impact.

KEY RESPONSIBILITIES
- Write new software from physical design and requirement documents
- Fix bugs as assigned by their team lead and product owner
- Attend and contribute to code reviews on an as needed basis determined by their team lead
- Attend and contribute to design meetings on an as needed basis determined by their team lead
- Attend, contribute to, and run the daily scrum activities for the technology team
- Provide accurate and standards-based documentation when needed
- Use current software best practices – design patterns, coding standards, etc.
- Support/assist QA's efforts of testing developer's software – developer's notes, helping with configuration etc.
- Support and assist Marketing & Sales efforts to provide customer support when needed
- Assist and guide other members within the development team
- And other various assigned duties & responsibilities as required by GER from time to time
- Develop highly decoupled scalable solutions in Frontend Frameworks

MINIMUM QUALIFICATIONS

- Bachelor's degree in computer science (or equivalent experience)
- The ability to obtain and maintain a Secret Security Clearance
- 5+ years' experience in software development, testing, or quality assurance
- 5+ years' experience with HTML5 & JavaScript/Typescript
- Proficiency with the Software Development Lifecycle and SCRUM AGILE methodologies
- Visual Studio 2019+
- Change management/configuration management experience
- Demonstrated experience in coding, building, and deploying Software and Web Applications

KNOWLEDGE, SKILLS & ABILITIES
- Demonstrated ability to manage multiples tasks and priorities at one time
- Highly motivated

WHY JOIN GER

Mission Impact: Work on projects that directly enhance the well-being of military personnel, veterans, and underserved populations.
Leadership Opportunity: Collaborate with a forward-thinking executive team to shape the future of GER.
Growth Potential: Be part of a rapidly evolving organization with opportunities to make a significant impact.

HOW TO APPLY

Interested candidates should submit a resume and cover letter detailing their qualifications and vision for the role to careers@ger911.com.

EQUAL OPPORTUNITY EMPLOYER:

Global Emergency Response is an Affirmative Action and Equal Opportunity Employer. All qualified applicants will receive consideration for employment without regard to race, color, religion, sex, sexual orientation, gender identity, national origin, or protected veteran status and will not be discriminated against on the basis of disability.
